invites you to attend the*

COMET InSAR Training Workshop

5-7 November 2018
School of Earth and Environment
University of Leeds, UK

This 3-day workshop, aimed at early postgraduate students and postdoctoral researchers*, will include a combination of informal lectures and practical exercises covering the following topics:

- InSAR theory
- SAR data access and preprocessing
- Differential interferometry
- Interferogram creation and unwrapping
- Atmospheric effects & corrections
- Time series analysis
- Displacement field modelling
- InSAR-related pitfalls and caveats
- Sentinel-1 data processing
- GAMMA, ISCE, and StaMPS software
